# Discover all the features of ALTO AI to boost your UV business!

Our Artificial Intelligence technology **simplifies** the automotive inspection process.

## High performances

Your inspection images are analyzed, the damages are detected down to the finest scratch, and then classified by location and degree of severity.

## Easily integrable

With Tchek, you really get a technology that integrates into your business logic and tools.

## Rapidly scalable

At Tchek, our AI models are continuously trained to adapt to the specificities of each mobility actor.

## Affordable prices

Our prices are transparent, without hidden costs and accessible to as many people as possible.

# tchek

Remote **Trade-In**

Don't lose your leads along the way. With **Tchek Remote Trade-in**, **90% of the prospects** who ask you for an estimate will go to the end of the process **with you**.

Spend **up to 40% less time** on your trade-in offers.

Automate your repair costs estimates **without losing margin!**

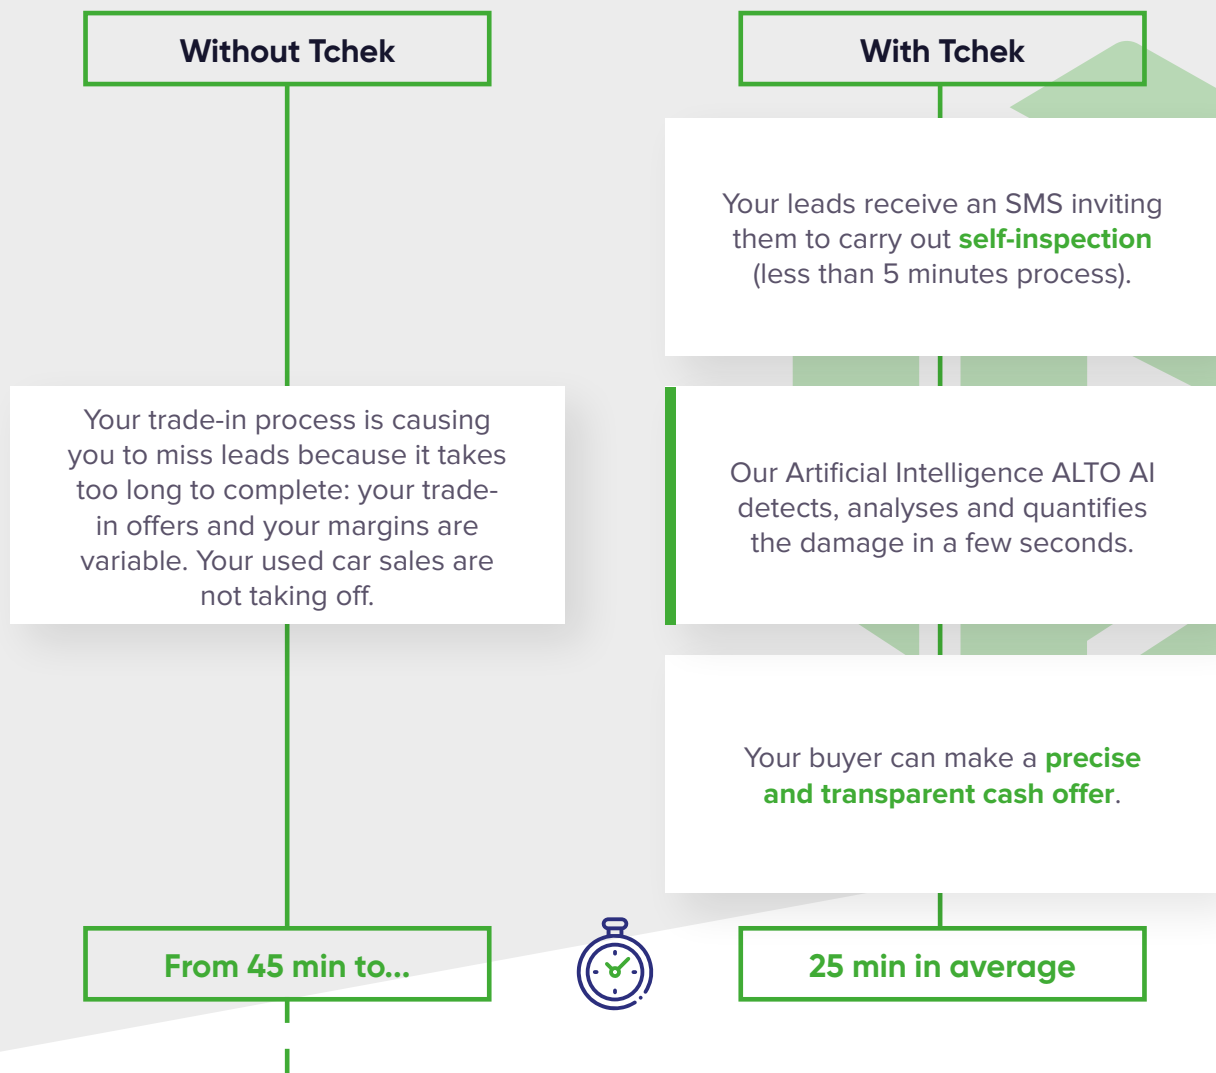

**Double** your lead handling capacity!

**Easily measure** your operational performance.

NEW!

# With Tchek Remote Trade-in, make trade-in offers **up to 2 times faster** than with a live inspection solution!

## Very satisfied

### Marion rated tchek.ai

Simple, fast, efficient. I received a link to an application that allowed me to send photos of my vehicle from all angles. 20 minutes later I had a transparent trade-in offer which I accepted.

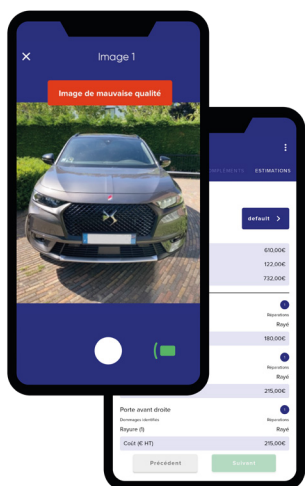

**Date of experience:** 30th of September, 2022

# Discover our other solutions !
